

# MAKE YOUR NITROGEN WORK SMARTER AND HARDER

When input costs are high, it's never been more critical to get the most out of your nitrogen management plan. Buying more nitrogen doesn't always make sense, so do more with what you have by tapping into the Koch Agronomic Services (KAS) line of proven nitrogen stabilizers.

## SAFEGUARD YOUR NITROGEN WITH CENTURO®

When you protect the nitrogen you apply, you maximize the nutrients available for crop uptake. CENTURO is an easy-to-handle nitrification inhibitor that brings peace of mind while acting as an essential component for any operation using anhydrous ammonia or UAN.

### Proven To Protect

A 2020 Nebraska study showed CENTURO treated UAN resulted in higher corn yields compared to untreated UAN.<sup>1</sup>

### Nitrogen Use Efficiency

In 12 replicated trials<sup>2</sup> conducted across four locations in Nebraska, Illinois and Missouri in 2016, 2017 and 2018, CENTURO improved nitrogen use efficiency by up to 25 percent.

### Easy To Handle

Compatible with most liquid nitrogen fertilizer products, CENTURO delivers the flexibility you need to run your operation with maximum efficiency.

## BUY LESS. DEMAND MORE.

Use less when incorporating a nitrogen stabilizer like CENTURO. For more information about CENTURO and how to maximize your return on investment during uncertain times, contact your KAS representative.
